

# Thai Foot Reflexology

**12 CE Hours**

Contrary to popular belief, Reflexology was introduced to China only during the past 30 years. It has spread like wild fire and is now used extensively throughout Asia. Massage Therapists, Bodyworkers, Reflexologists, and other professionals have been hearing of especially effective touch therapies coming out of Thailand. During this Seminar, students will learn a complete hands-on foot and lower leg routine as practiced in Thailand as well as many of the latest approaches to Foot Reflexology to come out of China. Hundreds of Reflexology Research studies have been conducted in clinics, hospitals, and medical teaching centers throughout China, using many of the techniques the student will learn during this Seminar. This work is fun, deeply relaxing, and has a dramatic ability to increase circulation not only in the feet, but also throughout the rest of the body.
